

trinel

An invisible field on your skin

It does not merely sit upon the skin— it transforms the very environment that surrounds it. A high-end skincare brand that offers rest and liberation to those wearied by constant stimuli and the weight of everyday life.

An invisible field on your skin

02

trinel

TRINEL is not about aggressive high concentrations designed for marketing buzz, nor token ingredients added in name only.

It is the essence of dermocosmetics — formulated through the lens of physicians and pharmacists, with complete control over the skin's physiological metabolic mechanisms, and built exclusively on clinically proven 'Optimal Ratios' and 'Synergy Mechanisms.'

Rather than simply increasing concentrations, we researched the golden ratio that skin actually responds to. Caring correctly, every day, without irritation — that is the TRINEL philosophy.

Feel the air. Fit like air

Light As A Breeze, Precise In Performance

MADE IN KOREA

01

Field Breeze Serum

For Tone & Comfort
Soothing & Barrier Care
with Thixo-Set™

A thixotropic water-fit texture glides on effortlessly and adheres as a thin, flexible layer, keeping skin fresh and comfortable even in hot, humid conditions.

With niacinamide and adenosine, it delivers soothing, barrier care and lightweight, non-sticky hydration—ideal for use even before makeup.

THIXO-SET™ Water-Fit Texture

and clinically-backed
key ingredients
— Once a day, effortlessly!

Directions for Use

“After serum
absorbs, apply a
thin layer to
finish”

Ingredient Focus

- Niacinamide 3%** — Inhibits melanosome transfer, clinically optimal concentration
- Madecassoside** — Not a simple extract. High-purity active CICA 2.0
- THIXO-SET™** — Viscosity dissolves on contact. Zero-friction absorption
- Xylitol 1.5%** — No alcohol. Physiological fresh hydration

6 Key Features

Bursts like water the moment it touches skin
THIXO-SET™ Water-Fit Texture

Comfortable even in hot and humid conditions —
No heavy or stuffy residue

Dual daily care for skin tone and fine lines
Niacinamide 3% + Adenosine

Gently soothes sensitive and reactive skin
Panthenol 0.5% + Madecassoside + Allantoin

Refreshing on the surface, deeply hydrated within —
Multi-Layered Hyaluronic Acid Hydration

No pilling, no stickiness — even under sunscreen and makeup
Lightweight Daily Serum

Core Technology

A Breakthrough in Texture

THIXO-SET™ applies thixotropy technology from pharmaceutical formulation science. It maintains a soft gel consistency at rest, then the moment it contacts skin and is rolled in, its viscosity breaks down and it spreads like a drop of water. Used before sunscreen or makeup base, it acts as a zero-step primer serum — eliminating pilling and lifting for a perfect, seamless base.

Evolved CICA 2.0 — Madecassoside

The majority of centella asiatica (CICA) products on the market are little more than water steeped from leaves. TRINEL prescribes Madecassoside — a high-purity extract of only the active compounds directly involved in collagen synthesis and barrier regeneration — delivering medically meaningful soothing efficacy.

The Safe Golden Ratio

This formula eliminates the irritation and contact dermatitis caused by competitors' products at concentrations of 10% or higher. Niacinamide 3% inhibits melanosome transfer (tone improvement), while Adenosine stimulates collagen production in the dermis (wrinkle improvement) — both without irritation.

Comparison Table

	General Serum	High-Concentration Serum (10%+)	TRINEL Serum
Niacinamide	✗	✓ (irritation risk)	✓ (3% golden ratio)
Madecassoside	✗	✗	✓
Makeup Pilling	Present	Present	Zero
Skin Irritation	Low	High	None

Formulated by Physicians & Pharmacists
 Manufactured by COSMAX Korea

Global No.1 Cosmetics ODM

Made for people like you

- Your foundation always pills after applying serum
- High-concentration serums have left your skin red and irritated before
- You skip serum altogether because the texture feels too sticky
- Busy mornings — you want to cut at least one step before sunscreen

Field Breeze Cream

For Calm & Comfort
Soothing & Barrier Care
with Thixo-Set™

50ml | 1.69 fl.oz.

02

Field Breeze Cream

For Calm & Comfort
Soothing & Barrier Care
with Thixo-Set™

A thixotropic gel-cream texture spreads smoothly and adheres flexibly to the skin, forming a lightweight yet stable moisturizing veil. With squalane-based hydration, it supports soothing and barrier care while maintaining comfortable, non-greasy moisture—ideal for both day and night use.

Niacinamide
+ Adenosine
+ Panthenole

and synergistic supporting
ingredients
— Twice a day, effortlessly!

Directions for Use

"After cleansing,
gently roll
across skin
following its
texture"

Ingredient Focus

- Panthenol 1%** — Twice the serum concentration. Intensive overnight barrier repair
- Squalane 0.5%** — Replaces sticky glycerin. Mirrors skin's own natural sebum
- Niacinamide 2%** — No gap in care, even without the serum step
- THIXO-SET™** — Zero pore-clogging, even in hot and humid conditions

6 Key Features

Thin, flexible, and skin-hugging THIXO-SET™ Gel-Cream Fit Texture	A lightweight moisture veil — No heaviness, no suffocating feel	Daily functional formula for tone and fine lines Niacinamide 2% + Adenosine Dual Care
Gently soothes dry and reactive skin Panthenol 1% + Madecassoside + Allantoin	Smooth and supple without greasiness — Squalane 0.5% Balanced Moisture Design	Comfortable alone or under makeup Daily Barrier Cream for Morning and Night

Core Technology

Climate-Adaptive Barrier Cream

We have fundamentally reimagined the heavy, occlusive texture typical of Western barrier creams. By precisely incorporating plant-derived squalane at 0.5% — closely mirroring the skin's own natural sebum — we have achieved a lightweight moisture veil that does not clog pores even in hot, humid Asian climates. The result is a Soft Skin-Fit Finish: refreshing on the surface, moisturized within — suitable even for combination and acne-prone skin without worry.

Panthenol 1% — Twice the Strength

This cream delivers twice the panthenol concentration of the serum (0.5%). At night, it intensively repairs the micro-trauma accumulated throughout the day. In the morning, it forms a primer moisture layer that enhances makeup adhesion — a true all-day, all-purpose formula.

Clinical Mastige

The clinical efficacy of premium global derma brands, at an accessible price point. Even at the cream step, TRINEL does not let go of anti-aging — niacinamide and adenosine work continuously for tone and wrinkle care, even when the serum step is skipped.

Comparison Table
